

Safety Guidelines:

CHEWABLE PRODUCTS AND CHEWIES

All Fun and Function chewable products are for therapeutic use only and they should not be considered toys. Please read these Safety Guidelines and the product insert before using your chewy. Consult with your pediatrician or therapist for oral motor guidance.

USING YOUR CHEWY

- Caregiver should teach child how to correctly use the chewy:
 - Only mouth the chewable portion.
 - Do not chew on necklace cords, chains, or clasp.
- Remove chewy before active play, naptime, and bedtime.

INSPECTING YOUR CHEWY

- Frequently inspect chewy and cord for signs of wear and tear.
 - If the user has aggressive biting or chewing habits, inspect more frequently.
- Immediately dispose of chewy that show signs of discoloration, cracking, or any other signs of deterioration.
- Discard and replace any cords that show signs of fraying, thinning, breakage or damage.

CARING FOR YOUR CHEWY

- After use, hand wash or surface wash the chewable product according the care instructions provided. Air dry.
- Some chewable products are dishwasher safe. Check specific product information or email us at wecare@funandfunction.com.

ABOUT OUR CHEWIES

- Our chewy products have been tested to withstand at least 100lb of bite strength.
- Chewable product durability may depend on the oral sensory needs of the child, as well as oral habits. If the user has aggressive biting or chewing habits, choose a higher durability chewy and inspect more frequently.

At Fun and Function, your family's safety is our priority. If you have questions about how to safely use this product or any chewable product, please contact us at wecare@funandfunction.com.
