FOR OHIO CUSTOMERS ONLY

The state of Ohio requires a TDDD certificate to be supplied in order to purchase prescription products. Be sure to include a TDDD certificate along with the completed Medical Authorization Form above. The physician's information/signature on the medical authorization form must match the information shown on the TDDD certificate for the order to be processed. It is also an Ohio Law that the order must ship to the address on the TDDD license. All prescription products will be shipped to the address that appears on the supplied TDDD certificate. You will have to coordinate the product receipt with your physician's location (TDDD certificate address). If you ordered non-prescription products on the same order, those items will be delivered to the ship-to location specified on your order. Only the prescription products will ship to the TDDD address.
